PDT-7 Request Loan	Un...	PV Pankaj Vishw...	Medium	TO DO
PDT-8 PB-004 - Request Loan Allows Negative Down Payment	Un...	PV Pankaj Vishw...	Medium	TO DO

🟡 BUG-001: Transfer Funds Allows Negative Amount

Defect Information

Field	Value
Bug ID	PB-001
Module	Transfer Funds
Severity	Medium
Priority	High
Status	Open
Reported By	Pankaj Vishwakarma

Defect Summary

The application allows users to initiate a fund transfer using a negative amount value.

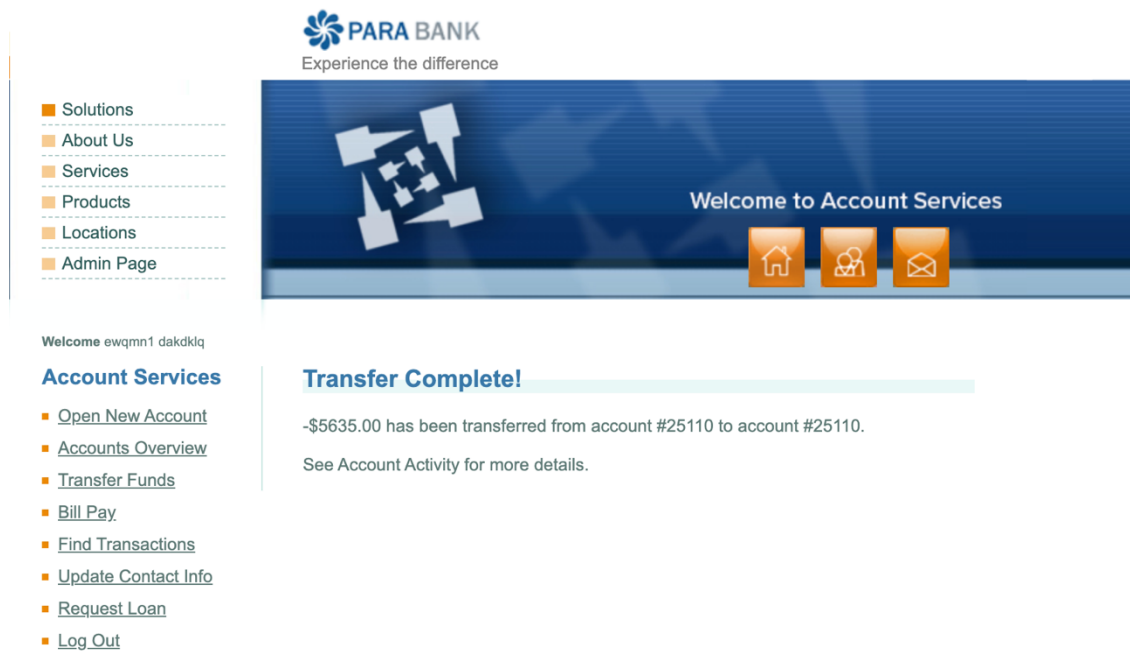

Preconditions

- User must be logged into the application.

- User must have at least two active accounts.

Steps to Reproduce

1. Login to ParaBank.
2. Navigate to **Transfer Funds**.
3. Enter transfer amount as **-100**.
4. Select source and destination accounts.
5. Click **Transfer**.

Expected Result

The system should reject the transaction and display a validation message indicating that transfer amount must be greater than zero.

Actual Result

The transfer request is accepted and processed successfully.

Business Impact

- Incorrect account balance calculations.
 - Financial data inconsistency.
 - Potential transaction integrity issues.
-

BUG-002: Bill Payment Allows Negative Amount

Defect Information

Field	Value
Bug ID	PB-002
Module	Bill Payment
Severity	Medium
Priority	High
Status	Open
Reported By	Pankaj Vishwakarma

Defect Summary

The Bill Payment module accepts negative payment amounts and processes the transaction.

Preconditions

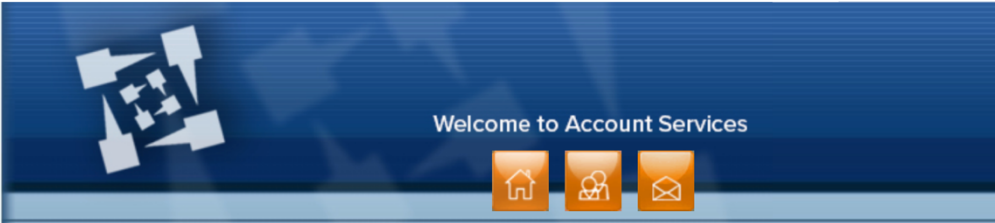

- User must be logged into the application.
-

Steps to Reproduce

1. Login to ParaBank.
2. Navigate to **Bill Pay**.
3. Enter valid payee details.
4. Enter payment amount as **-50**.
5. Click **Send Payment**.

Bill Payment Complete

Bill Payment to Pankaj Vishwakarma in the amount of \$-700.00 from account 25110 was successful.
See Account Activity for more details.

Expected Result

The application should reject negative payment amounts and display an appropriate validation message.

Actual Result

The payment request is accepted and processed.

Business Impact

- Invalid payment transactions are created.
- Customer balances may be impacted incorrectly.
- Financial reporting becomes unreliable.

BUG-003: Transfer Funds Allows Same Source and Destination Account

Defect Information

Field	Value
Bug ID	PB-003
Module	Transfer Funds
Severity	Medium
Priority	High
Status	Open
Reported By	Pankaj Vishwakarma

Defect Summary

The application allows users to transfer funds from an account to the same account.

Preconditions

- User must be logged into the application.
 - At least one account must exist.
-

Steps to Reproduce

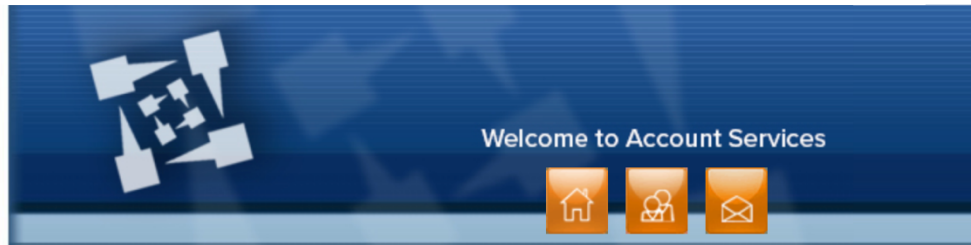

1. Login to ParaBank.
2. Navigate to **Transfer Funds**.
3. Select the same account in both **From Account** and **To Account** fields.
4. Enter a valid amount.
5. Click **Transfer**.

Transfer Complete!

-\$5635.00 has been transferred from account #25110 to account #25110.

See Account Activity for more details.

Expected Result

The system should prevent the transaction and display a validation message.

Actual Result

Transfer is completed successfully.

Business Impact

- Creates meaningless transactions.
 - Generates inaccurate transaction history.
 - Reduces audit trail reliability.
-

BUG-004 Request Loan Allows Negative Down Payment

Defect Information

Field	Value
Bug ID	PB-004
Module	Request Loan
Severity	Medium
Priority	High
Status	Open
Reported By	Pankaj Vishwakarma

Defect Summary

The Request Loan module accepts a negative value in the **Down Payment** field and successfully processes the loan request. The system should reject negative down payment values and display a validation message.

Preconditions

1. User is registered successfully.
2. User is logged into ParaBank.
3. User navigates to Request Loan page.
4. At least one account exists.

Steps to Reproduce

1. Login to ParaBank.
2. Navigate to **Request Loan**.
3. Enter:

Field	Value
Loan Amount	100
Down Payment	-10

- Select account.
- Click **Apply Now**.

Loan Request Processed

Loan Provider: Wealth Securities Dynamic Loans (WSDL)
Date: 06-8-2026
Status: Approved

Congratulations, your loan has been approved.

Your new account number: **13899**

Expected Result

The application should reject the negative down payment value and display an appropriate validation message.

Example:

Down Payment cannot be negative.

The loan request should not be processed.

Actual Result

The application accepts the negative down payment value and successfully processes the loan request.

Displayed message:

Loan Request Processed

Impact Analysis

Business Impact

- Incorrect loan calculations.
- Invalid loan approval.
- Financial inconsistencies.
- Violation of business validation rules.

User Impact

- Users can submit invalid financial information.
 - Loan records may become inaccurate.
-

Defect Severity Summary

Bug ID	Module	Severity	Priority
PB-001	Transfer Funds	Medium	High
PB-002	Bill Payment	Medium	High
PB-003	Transfer Funds	Medium	High
PB-004	Request Loan	Medium	High

Conclusion

All four defects are classified as **High Priority** due to their direct impact on core banking operations and customer transactions. All defects are categorized as **Medium Severity** because they can affect financial integrity, transaction processing, and payment accuracy. Immediate resolution is recommended before production deployment.
